

## DA Assignment 2

### Donut chart

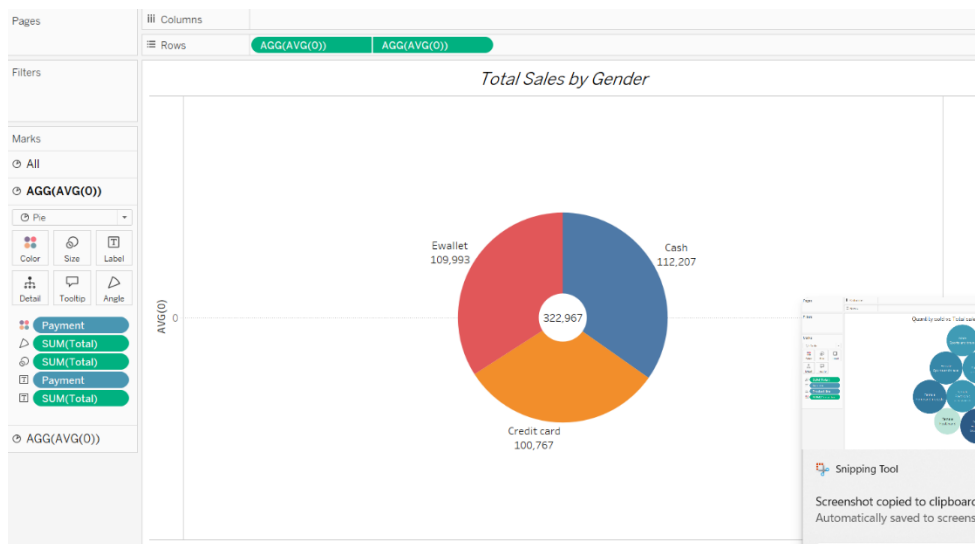

Create a pie chart with Column as Branch and Rows with Rating

In Rows pill type avg(0) and hit Enter, Repeat it One more time

Remove all the pills from 2nd Agg Avg(0) in Marks section

Go to Second Agg Avg(0) in rows > Click on drop down and select dual axis

Add white color in 2nd Agg avg(0) in marks section

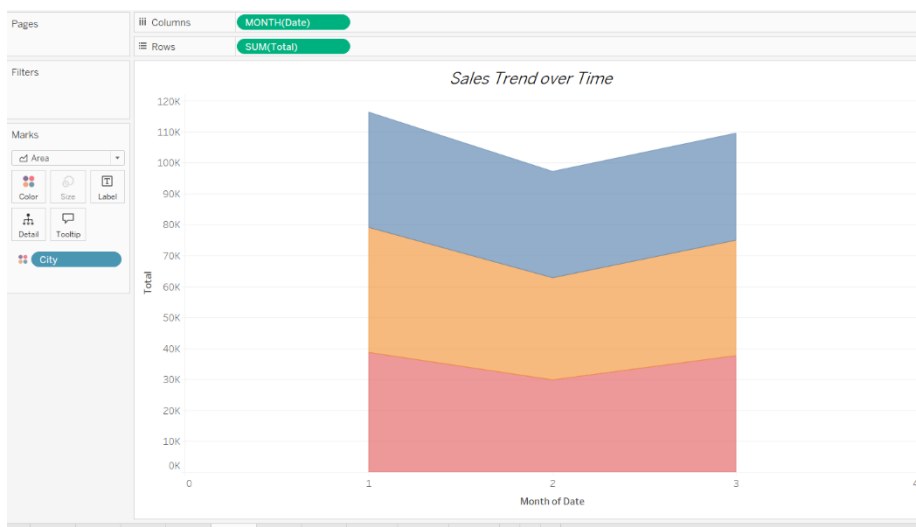

### Area chart

C- Date

R- Total

Drag and drop city on col

## Text Table

C-Product line

R- City

Drag and drop product line on label

Tableau interface showing a text table visualization titled "Sales by City and Product Line". The table displays sales data for three cities (Mandalay, Naypyitaw, Yangon) across six product lines. The 'Product line' dimension is placed on the label shelf, and the 'SUM(Total)' measure is placed on the text shelf.

City	Electronic accessories	Fashion accessories	Food and beverages	Health and beauty	Home and lifestyle	Sports and travel
Mandalay	17,051	16,413	15,215	19,981	17,549	19,988
Naypyitaw	18,969	21,560	23,767	16,615	13,896	15,762
Yangon	18,317	16,333	17,163	12,598	22,417	19,373

## Highlighted Table

C-Product line

R-City

Drag and drop Total on col & labels.

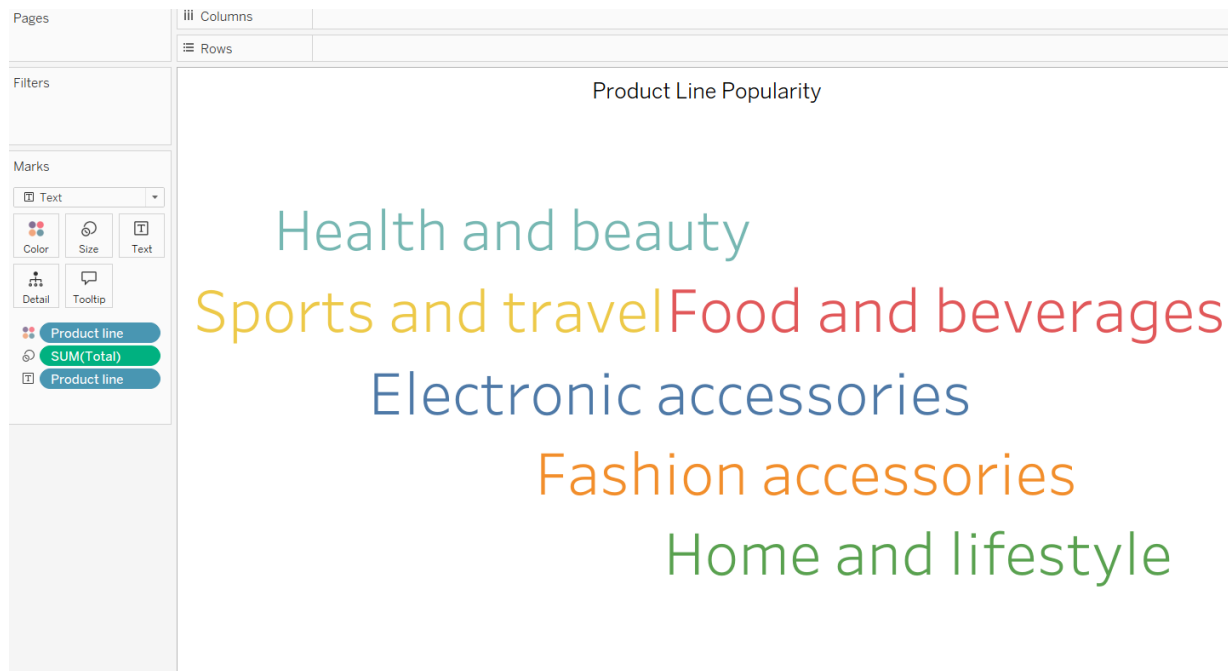

Tableau interface showing a highlighted table visualization titled "Add Color to Text Table". The table displays sales data for three cities (Mandalay, Naypyitaw, Yangon) across six product lines. The 'SUM(Total)' measure is placed on both the column and label shelves, creating a heatmap effect where cells are colored based on the total sales value.

City	Electronic accessories	Fashion accessories	Food and beverages	Health and beauty	Home and lifestyle	Sports and travel
Mandalay	17,051	16,413	15,215	19,981	17,549	19,988
Naypyitaw	18,969	21,560	23,767	16,615	13,896	15,762
Yangon	18,317	16,333	17,163	12,598	22,417	19,373

## Word cloud

Drag and drop product line on color & labels

Drag and drop Total on Size
